

ASTRA NOVA

Astra Nova is a Web3 RPG that throws players into the center of an inter-dimensional conflict between godlike avatars of Chaos and Order. In they dynamic, story-driven 3rd Person Action Adventure, players explore the mysteries of their new home planet, battle to unite warring factions & rally their forces against the coming onslaught of The Accretion. As the Final Envoy, players control their destinies, from designing their own custom character & choice of specialty skills to navigating a storyline full of twists and turns. Action Gameplay is enhanced by a unique Companion System allowing players to swap in either story-based MPCs or NFT-powered NPCs. Diplomatic Gameplay includes a Resource Management game mode further enhanced by our unique NFT-compatible Outpost System.
